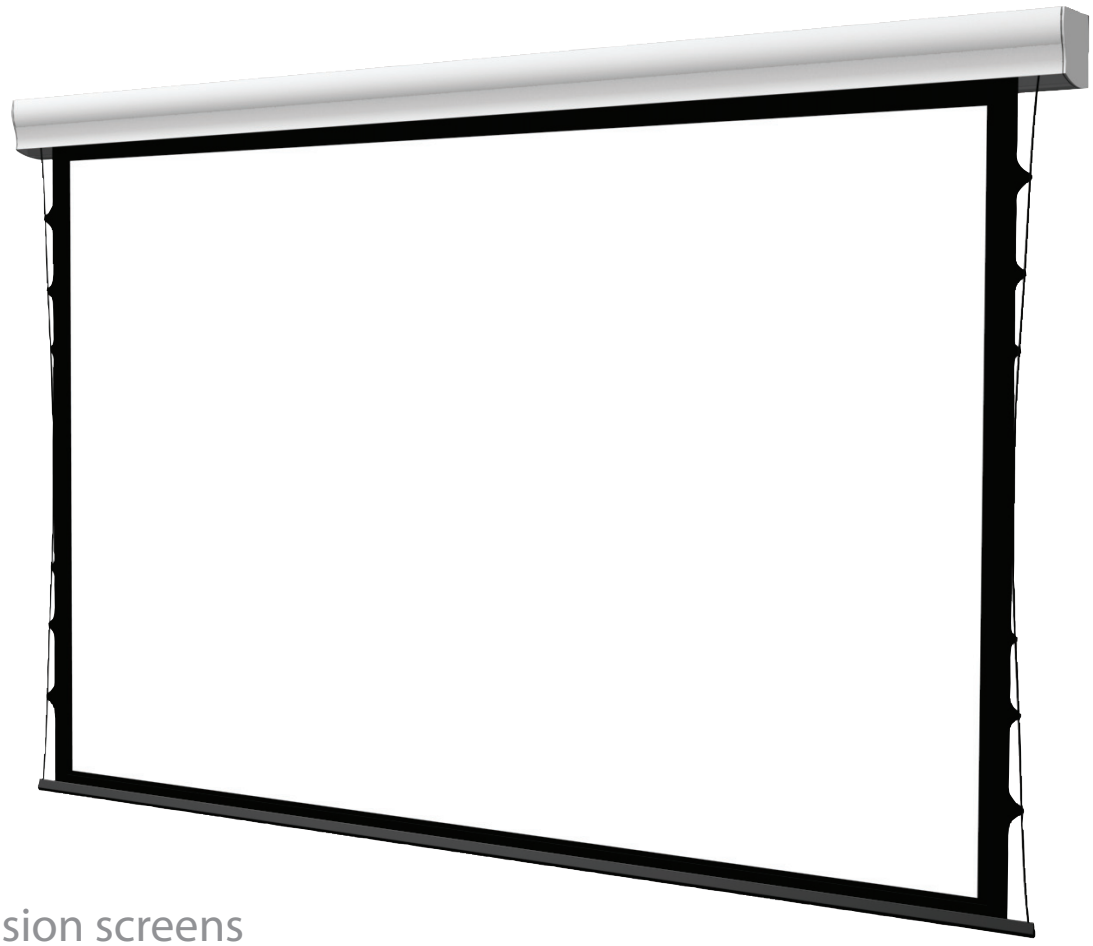
Mounted Projection Screens



Tab tension screens

The ultimate screen for a superior flat image

SCREENLINE

Constant tension to the screen edge gives a pure flat ripple free screen without any edge curl. The result is a superior projected image which is further enhanced with matte black borders. Available in both front and rear projection materials. The sleek and stylish aluminium case offers channel fix style mounting for easy installation.

All screens include black borders.
Video format have a 200mm extended black drop.
16:10 and widescreen formats have 500mm extended black drop
